

Mobile Printing Guide for Android device

System requirements

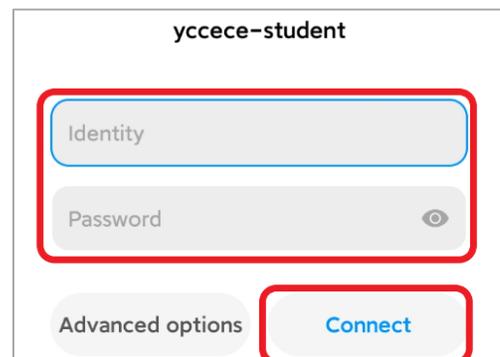

- Use **yccece-student** Wi-Fi
- For staff, use **yccece-staff** Wi-Fi
- Android 4.4 or later

A. Setting up Wi-Fi

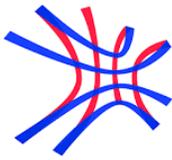

- Connect to **yccece-student** Wi-Fi
- For staff, connect to **yccece-staff** Wi-Fi

- Input your **Student ID** and **password** (the same as Moodle login)
- For staff, it is the same as your **college email login** (**without @yccece.edu.hk**)

- Tap **Connect**

B. Downloading the Mobility Print app

- Search for **Mobility Print** on Play Store

Mobility Print

- Launch the app and ensure the Mobility Print Service is on

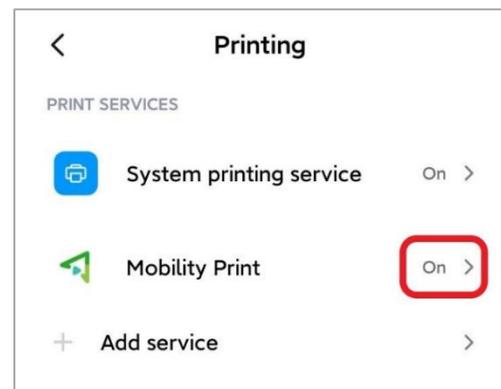

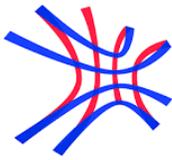

- On your phone, open the **Settings** app

- Tap **Connected devices > Connection preferences > Printing**

Note: Interface may vary among different models

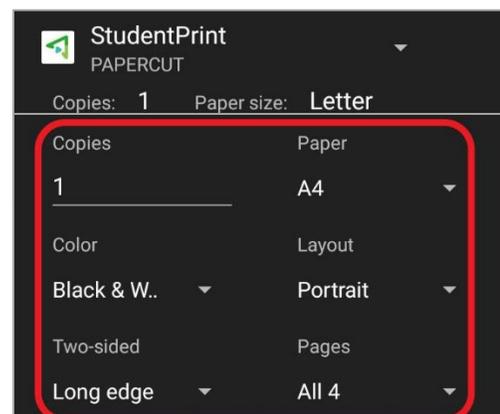

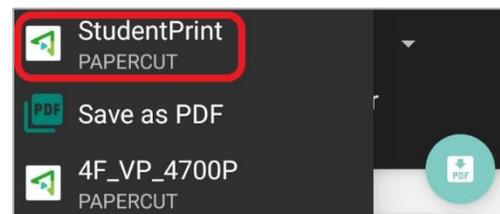

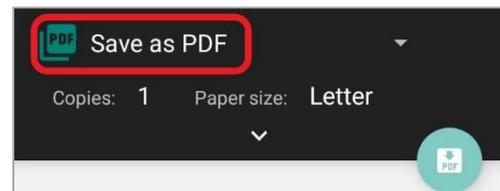

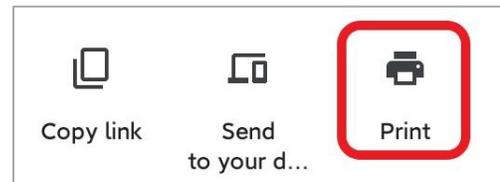

- **Turn on** Mobility Printing

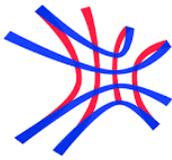

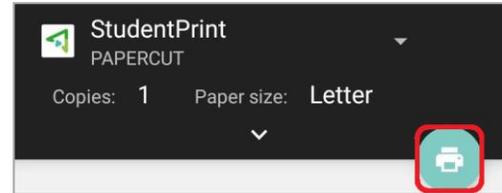

C. Submitting a print job

- If you are browsing on Chrome, tap the **Menu** icon
- Tap **Share**
- Tap **Print**
- Tap **Save as PDF** to open the pull-down menu
- Select **StudentPrint**
- For staff, select **KMFollwMe_Staff**
- If you wish to change the print setting, **open the drop-down menu** ▼

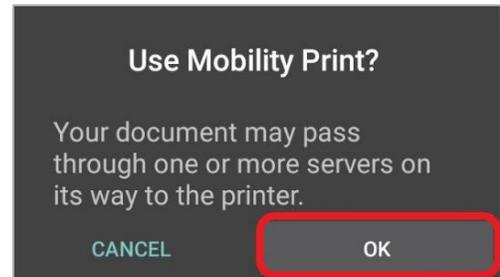

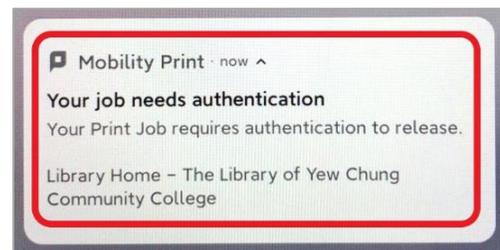

- Tap the **Print** icon when the settings are done

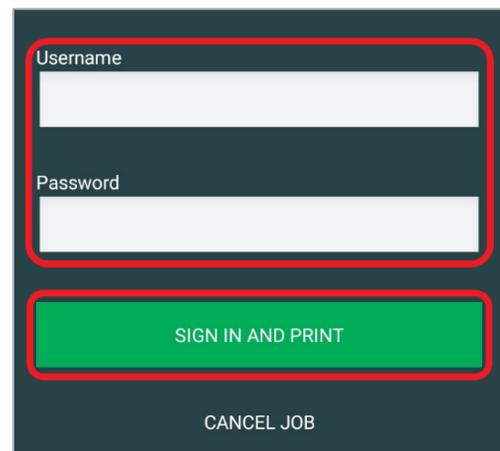

- Tap **OK** to use Mobility Print

- For first-time user, swipe down to show the notification panel, and tap **Your job needs authentication**

- Input your **Student ID** as username and **password** (the same as Moodle login)
- For staff, it is the same as your **college email login** (without @yccece.edu.hk)

- Tap **Sign in and print**

- You can release your print job at the printers in the Library or Wofoo SLC
