How to Design and Evaluate Research in Education

This book provides a comprehensive introduction to educational research. The text covers the most widely used research methodologies and discusses each step in the research process in detail. Step-by-step analysis of real research studies provides students with practical examples of how to prepare their work and read that of others. End-of-chapter problem sheets, comprehensive coverage of data analysis, and information on how to prepare research proposals and reports make it appropriate both for courses that focus on doing research and for those that stress how to read and understand research.

Library Guides on ECE & APA Citation

Citing Resources in APA Style

When you are writing your assignment or creating a presentation, you are likely to use existing works such as current researches or online images. By citing the source of the works that you have used, you avoid plagiarism which is a serious offense.

The APA Referencing System is a way of acknowledging someone's work correctly.
